Mission

To enable a culture of humanised innovation for achieving sustainable growth.

User: Build empathy driven products and solutions that enhance the quality of human life.

Market: Build innovative products and solutions that drive market leadership through customer delight.

Vision

To humanise innovation that transforms every living and working area into an intelligent personalised space.

1968

CONA SMYLE

Founded by 3 brothers , with a dream in their eyes to make India self reliant, and become a part of the Indian industrialisation. Over the years Cona has earned its reputation for making innovative and durable quality products which can be afforded by a common man.

Bringing aesthetics to the electrical field has been our forte and part of the DNA.

2007

CONA LIGHTING SOLUTIONS

The entry of LED in India brought about a sea of change within the lighting industry. Starting with facade lighting design and entering into the mood lighting space, Cona lighting has played an important role in changing the facade of many Mumbai's iconic buildings.

Bringing the best designs into reality, seeing the architects dreams come true gives us the satisfaction which can't be replicated.

2015

OSUM

The era of IOT has brought in another exciting world of opportunities. India is on the cusp of the next explosion of world class smart products. We at OSUM have entered this market with something no other brand in the world has yet offered. The luxurious front ends with ultra smart features makes a perfect combo along with the patented hybrid technology which is ideal for Indian market, and our most lethal advantage.

With OSUM, we not only aim to be a market leader in India, but this has brought us a unique opportunity to showcase to the global community - the MAKE IN INDIA capabilities.

OSUMClick

Get it

Refined with Richness.

Softest mechanism in the industry along with unique accessories like buzzer, socket, a simple slow-medium-high fan regulator, USB Socket and many more.

Attention to details make a big difference, hence we manufacture every single switch with utmost precision, to achieve both aesthetic and functional excellence. The supreme quality of the surface beautifully encompasses the multiple mechanical parts inside the switch. The switch undergoes various stages of quality testing to enhance the homes of our happy customers.

Arc Switches

OSUMframes

Flaunt it

Each frame is supported with the **strongest metal base** in India.
This ensures that no matter how it's fixed by untrained electricians, there is no loose locking, or uneven installations.
Also the sockets don't pop out when pulled and the gaps between switches are properly aligned.

Plunge into luxury.

Where elegance is an add on to superior performance.

Impressive wall panels
for your smart home.

Designed with Passion,
Made with Perfection.

Premium front end, tougher back end.

Why the metal plate?

To strengthen the back plates. Most of the Indian sites have uneven walls that lead the plates to bend and switches to get stuck or sockets to come out easily. To ensure proper alignment and perfect locking of the plates, switches, and sockets the metal base is added.

OSUMframes
Flaunt it

it's an OSUM
feeling

Pure
Modular frames

Pure plates are designed to be made with best premium materials like Glass & Metal, and chrome borders gives that right touch of bling to your luxurious project.

Simplified elegance.
Because simple is profound.
